

Assignment 7 (2hr)

Fruit Bowl (6%)

DUE DATE

Session 9/Week 2

OBJECTIVE

In this assignment, you will apply the blending of colours and shapes in Adobe Illustrator to create an orange, a banana, and a bunch of grapes in a bowl. You will note all major steps and settings in a Recipe document. The objective of this assignment is to:

- Create and save a gradient fill.
- Apply and edit various types of gradients.
- Create and edit freeform gradients.
- Create and modify color blends between objects.
- Create and paint with patterns.

INSTRUCTIONS

Create each four fruit objects separately, then composite them into a single illustration. *Add a screenshot of each fruit once completed, and one of the final composition to your recipe.* As you work, use a word processor to create a document detailing how you accomplished all the steps in the assignment. Please add screenshots to your recipe as necessary.

1. Create the orange. Apply a pattern to approximate the skin. Apply a gradient to give the orange dimension. Adjust the opacity if necessary. Add a navel.
2. Create the banana using transformation techniques. Apply a pattern to approximate the skin texture. Apply a freeform gradient to give the banana's skin some shading.
3. Create a grape, adding an appropriate pattern. Use a blend to approximate dimension through changes in colour and shade. Multiply the grape to create a bunch. Add grape vines using drawing methods such as the pen tool.
4. Create a bowl. Apply a gradient. Move or copy the fruit into the bowl, positioning the fruit or adjusting gradients to a single light source. The group can include more than one of each fruit.
5. Make sure to save your project as an AI file. You will submit this document along with your "Recipe" document.

SUBMISSION INSTRUCTIONS

- Save your assignment as an AI file (working file) with the following file name: [Last Name] - [First Name] – Assignment7.
 - (1x) [Last Name] - [First Name] – Assignment7.ai
- Complete your "Recipe" in a MS Word document (or your preferred format) and save it to your computer with the following file name: [Last Name] - [First Name] – Assignment7Recipe.
Reminder: A "Recipe" is a list of the major steps you took in your project to achieve the final piece. Please make sure you include your tools & settings used for each grading requirement to achieve the best mark. Screenshots need to be added to your recipe for the various steps as required.
 - (1x) [Last Name] - [First Name] – Assignment7Recipe.docx or .pages or .pdf
- To submit both files, select "Add submission" on the assignment submission page.

GRADING CRITERIA

Assignment Value: 6%

Grading Criteria	Grading
Completion of Orange	20/100
Completion of Banana	20/100
Completion of Grapes	20/100
Completion of Fruit Bowl and Final Composition	20/100
Submit files named properly with correct file extensions.	10/100
Recipe completed, detailing all steps and settings necessary.	10/100
TOTAL	100/100
